

Océ Folder Professional 6011/6013

ES-TE ROLLER-BLADE TECHNOLOGY FOR FAST, RELIABLE AND PRECISELY FOLDED CAD AND GIS PRINTS

- Benefit from improved fan and cross folding for exceptional reliability and results.
- Cut manual labour with efficient automation - there's no need to collect, trim, adjust or stack any prints by hand.
- Create a fully supported end-to-end workflow thanks to smooth integration with Océ printers**
- Print and fold technical drawings of up to 914mm (36 inches) wide, ideal for CAD and GIS production.
- Enjoy absolute precision and fast results with Es-Te roller-blade folding technology, operated from the app or via a PC.
- Maximise production with folding speeds of up to 18m/min or 16 folded A1 sheets/min with the Océ ColorWave 9000 and Folder Professional 6011/6013*.
- Produce even the narrowest of folds for an expanded application range and business growth, including exceptional quality GIS maps.
- Enjoy complete flexibility and develop your own bespoke fold programmes with Express WebTools.
- Specialise and increase your print offerings with optional Map Fold and Long Fold Licences.
- Print wider and heavier prints without removing the folder - simply put down the folder bridge and start printing.
- Offer clients something extra and opt for the 6013 to automatically attach tabs or reinforcement strips.

Océ Folder Professional series' Es-Te technology can be relied on for technical precision, speed and efficiency, ideal for CAD and GIS prints. With high productivity and reliability, it's an ideal partner for a seamless end-to-end workflow.
